

Alaska Occupational Safety Summit
2015 Post Conference Workshop:
Associate Safety Professional (ASP)
Updated for the new ASP 2015 Blueprint!
Examination Preparation Workshop

When: October 29-31, 2015 (8:00 am – 5:00 pm daily)

Cost: \$895.00 / person

(ASSE & AIHA Members receive a \$25 discount, national rate is \$950 – saving \$80 by taking it in Anchorage)

3 Days / 2.2 CEUs / 3.67 Safety CM Points, 25.5 CMPs / 2.2 COCs

The ASP (often called CSP Safety Fundamentals exam) is the first test required in the two-test process of becoming a CSP. The five hour computer delivered test consists of 200 questions designed to measure the academic knowledge expected of the entry-level safety professional.

This workshop will prepare you for the Board of Certified Safety Professionals' Safety Fundamentals Examination, which leads to the ASP designation. You will review more than 600 problems addressing the complete examination blueprint.

Location: Whitby Room, Hotel Captain Cook, Anchorage Alaska

Snacks and drinks will be provided each day, lunch is on your own.

This workshop will prepare you for the Board of Certified Safety Professionals' Safety Fundamentals Examination, which leads to the ASP designation. You will review more than 600 problems addressing the complete examination blueprint. At the completion of the ASP prep workshop participants will learn to:

Workshops include a 500 page professionally published Workbook, BCSP approved scientific calculator, pencils, notepad, highlighter, and SPAN® exclusive CertBoK™ online learning management system. SPAN® CertBoK™ includes over 600 targeted questions with multiple enhanced learning, exam simulation, and performance tracking capabilities is provided as part of the workshop (\$275 value!).

Alaska Occupational Safety Summit 2015 Post Conference Workshop: Certificate in Risk Assessment Seminar

When: October 29-31, 2015 (8:00 am – 5:00 pm daily)

Cost: \$795.00 / person

(ASSE & AIHA Members receive a \$25 discount)

3 Days / 2.1 CEUs.

Risk assessment is a dynamic process that will enable you to proactively manage workplace risks. Recognizing the importance of this significant skill for the safety professional, ASSE is offering the Risk Assessment Certificate Program.

This is a 40-hour program of continuing education and training in risk assessment. Participants in the Risk Assessment Certificate Program must complete all 40 hours (4 CEUs) within two years to receive the certificate.

These CEUs are earned by completing:

Three-day classroom risk assessment seminar (2.1 CEUs)

10 hours of selected electives (1 CEU)

Final Project (.9 CEU)

Location: Quadrant Room, Hotel Captain Cook, Anchorage Alaska

Snacks and drinks will be provided each day, lunch is on your own.

Upon completion of this three-day classroom seminar, participants will be able to:

Implement the steps of the risk assessment process

Conduct a risk assessment leading to the identification and prioritization of their organization's hazards and controls

Influence management to support risk reduction plans and efforts

Measure the effectiveness of the risk assessment process and outcomes to support their organization's objectives

The seminar consists of three topic areas: Hazard Identification in which participants will select the appropriate resources to produce a list of hazards for the basis of the risk assessment. Risk Analysis in which participants will begin the process of evaluating risks and learn to use recognized methods of assessment such as checklists, hazard analysis, failure modes and effects analysis, etc., and Risk Evaluation and Treatment in which participants will use the tools provided in this seminar to verify risk acceptability, synthesize mitigation options, create a baseline for future risk reduction comparisons and apply a hierarchy of controls
